How many undergraduate credit hours have you completed: _____ Credit hours currently enrolled in: _____

How many undergraduate selective courses have you taken? _____

GPA in your major courses: _____ Cumulative GPA (all courses): _____

Undergraduate Major: _____ Proposed Graduate Concentration: CIT EET MET IET MHET TLM

GPA confirmed: _____

Undergraduate Advisor's Printed Name

Undergraduate Advisor's Signature

Date

To complete the application process, you must submit the following at least 4 weeks before the start of your senior year:

1. Electronic Graduate School online application: You will apply for a Master of Science in Technology (specify your Research Area, or concentration).
 - a. A Statement of Purpose (max 500 words) which should describe your purpose for wanting the M.S. degree, reasons for wanting to study at Purdue Northwest, professional plans, career goals, and research interests.
 - b. Ask three faculty members to provide letters of recommendation (they will submit recommendations electronically through your Graduate School application).
 - c. Purdue University Northwest transcript and any other undergraduate transcripts.
2. Pay the required application fee.
3. Following the receipt of these materials, the Graduate Education Council will meet to accept or reject the application to the program. Following the meeting, the student will be contacted by the College of Technology Graduate program and be informed of the result. Your formal acceptance to the Graduate School will follow.

I understand that if accepted into the combined degree program, my student record will show my status as undergraduate until my undergraduate credit requirement has been satisfied. I will not be an official graduate student until I complete the electronic graduate school application and receive the acceptance letter from the Dean of the Graduate School. If I have not enrolled for graduate classes within one year of completing my undergraduate degree requirement, I will not be permitted to re-enter the combined degree program. In that circumstance, I can reapply for admission as a traditional graduate student and the graduate-level courses used to complete the B.S. degree cannot be used to satisfy degree requirements for a graduate degree.
